

Day 15: Master Bedroom

The master bedroom is the most intimate and personal room in your home.

An oasis, a comfort zone, a classic retreat, and sweet dreams are all phrases that describe a master suite.

Or should.

Let's get back to sweet dreams and organize our personal space, transforming it into a beautiful sanctuary - filling it with furniture that pleases the eye, linens that invite you to get comfortable and personal treasures that make you smile.

Checklist

Objective: To create a personal haven in your master bedroom by eliminating everything that deters from it.

- Clear all surfaces of the room, including under furniture, the bed and anything on the floor.
- Sort all items in the room and place in a put-away box, a donation box, a storage box or a garbage bag.
- Pile the things you are keeping in the room in another area and group into like items.
- Strip the bedding and either launder or schedule a dry-cleaning.
- Clean, dust and vacuum all surfaces, including upholstery, blinds, drapery and furniture.
- Light your room appropriate to determined use.
- Organize items that come back into the room into attractive storage trays, bins, baskets, etc.
- Beautify the room and... indulge with a vase of fresh flowers on your nightstand or a piece of chocolate on your pillow.
- Immediately take care of your boxes.

Tomorrow: Master Closet
