

Day 16: Master Closet

No matter the size, closets can quickly become organizational disasters. With an abundance of clothes and shoes, not to mention accessories, they can quickly become cluttered chaos without a storage system.

Even without a closet system, there are steps that can be taken to streamline closet organization.

Checklist

Objective: To organize the master closet with 5 easy and simple steps.

- Designate a staging area for closet contents.
- Empty the closet. (Even the hangers).
- Sort items and group by function.
- Eliminate items using either a "Put Away" Box, a Donation Box or a garbage bag.
- Return items to their proper home from the "Put Away" Box.
- Consider putting away seasonal clothing to help eliminate mass in the closet.
- Find simple yet functional storage for items like belts, ties, scarfs, handbags and so on.
- Clean the closet (walls, floors).
- Return items to the closet and organize as makes sense to you: by outfit, color, type -- or a combination.

Tomorrow: Master Bath
